### V21i, The IoT Vendor —

We took our world famous V21 beverage vending machine and added 'i' to it. It's now intelligent, intuitive and all inclusive.

It is equipped with an intuitive user interface on a **21.5" touch screen**. It utilizes a media management system for additional advertisement revenue.

It features all advance payments capabilities. The smart software helps you track your machine, provides efficient **route management** and **predicts customer's demand**.

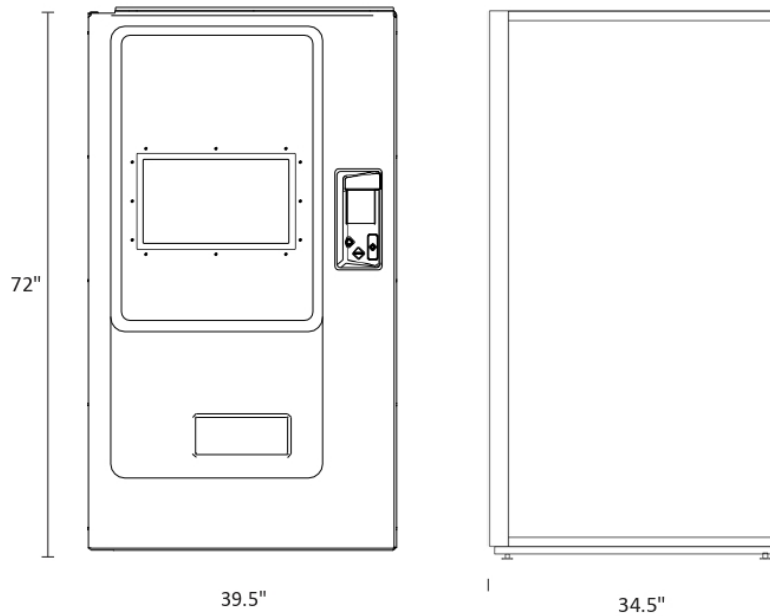

The machine monitoring system is now **intelligent** to build its own predictive error analysis. The optional advance features include beacon capabilities, **GPS module** and **network capability**.
